

Standards Assessment Framework – Workshop Activity Pack – May 2024

Activity 1 – INSTRUCTIONS

Pre-stage – describe your use case (scenario, change proposal)

Stage 1 (10 Minutes) – when completing Rationale, consider the merits of change across a number of core factors, including:

- if and how the proposal addresses a defined requirement or issue;
- the scale of this issue;
- what the proposed objective and outcomes are, aligned to fundamental CDR objectives and current Government priorities;
- whether a standards change, as opposed to other type of change within the CDR, provides greatest value.

Only provide detail of the vision-related outcomes that are relevant to the change proposal you are considering. You should not need to complete all sections.

Stage 2 (10 Minutes) – when completing Implementation Feasibility, consider various types and drivers of costs associated with potential changes, including:

- Length of time needed for implementation of the change;
- Technology limitations that may exist to implementing the change;
- Future expected maintenance activities of the change;
- Resource demands of the change; and
- Risks associated with the change

Stage 3 (10 Minutes) – when completing Net Benefit consider how your responses in Stage 1 and Stage 2 balance one another out, and whether you felt there were gaps in your knowledge which required further input from other parts of the community.

Organisation: _____

DSB may contact you to discuss your comments, in anticipation we appreciate you making yourself available for this.

Standards Assessment Framework – Workshop Activity Pack – May 2024 – Activity 1

DESCRIPTION OF CHANGE

What is the change?	Post-it Notes go here
---------------------	-----------------------

STAGE 1: RATIONALE

A) What <u>issue</u> would this change/provision solve?	
What is the problem being solved? Is this an existing or potential problem?	Post-it Notes go here
How extensive are the impacts of this problem? Which users are affected? How frequent is the problem (daily, monthly, yearly)?	Post-it Notes go here

Name: _____

Organisation: _____

DSB may contact you to discuss your comments, in anticipation we appreciate you making yourself available for this.

B) What benefit would this provision enable?

Considering the below visions and tests should help to demonstrate **the proposed outcomes** in terms of the **consumer and ecosystem benefits** the change would help realise. *You do not need to respond to every question, only provide detail where relevant to the change you are considering.*

Vision 1: The CDR will empower consumers to safely, securely, and conveniently grant third party access.

Test	Yes No	Justification
Does this provision make it <u>safe</u> for consumers to grant third party access?		Post-it Notes go here
Does this provision make it <u>secure</u> for consumers to grant third party access?		
Does this provision make it <u>convenient</u> for consumers to grant third party access?		

Vision 2: The CDR will enhance consumer outcomes efficiently and fairly.

Test	Yes No	Justification
Does this provision <u>enhance</u> a consumer outcome?		Post-it Notes go here
Does this provision make it more <u>efficient</u> to deliver a consumer outcome?		
Does this provision help deliver an outcome in a way that is <u>fair</u> ?		

Vision 3: The CDR will facilitate choice, competition, and innovation.

Test	Yes No	Justification
Does this provision facilitate <u>choice</u> ?		Post-it Notes go here
Does this provision facilitate <u>competition</u> ?		
Does this provision facilitate <u>innovation</u> ?

STAGE 2: IMPLEMENTATION FEASIBILITY

Question	Explanation
<p>Immediate industry implementation</p> <p>What resource constraints exist? What technology limitations exist? What risks would be associated with the change?</p>	
<p>Longer term implementation</p> <p>What future maintenance activities, if any, are expected?</p>	
<p>Implementation planning/approaches</p> <p>Within what timeframes should implementation take place? What factors are impacting your assessment of the required timeframes?</p>	<p>Post-it Notes go here</p>

Name: _____

Organisation: _____

DSB may contact you to discuss your comments, in anticipation we appreciate you making yourself available for this.

STAGE 3: NET BENEFIT

Question	Explanation
Assessment of the rationale against feasibility considerations[?]	<p style="text-align: center;">Post-it Notes go here</p>
How should this change be prioritised in relation to other proposals?	
What trade-offs would take place?	
What assumptions have been made in collating the evidence for the value and implementation feasibility?	

Name: _____

Organisation: _____

DSB may contact you to discuss your comments, in anticipation we appreciate you making yourself available for this.

Standards Assessment Framework – Workshop Activity Pack – May 2024 – Activity 3 and 4

Complete in Activity 3 and Present in Activity 4

Scenario	Pass Y N	Framework Feedback
